BIO

Dani Brasil started his career as a DJ in early 2017 but his passion and dedication for music began many years before. Dani has travelled the world and has performed in the Americas, Europe, Asia and Australia, totaling over 20 countries and major cities such as New York City, Sydney, Singapore, Dubai and Shanghai.

His creative skills are not only noticed in his live sets but also on the musical production that he does. During the 2020 pandemic, Dani dedicated his time to learn music production. His remix of the Tina Turner cover “The Best” has entered the Top 10 charts worldwide in the 9th position and his original work “Stitches” with Nina Flowers reached #7. Not to mention that Dani’s original work “Black Tears” with superstar Maya Simantov is still on top of the charts with almost a year after it has been released.

With these important achievements along with the rankings and sales of his other remixes, Dani has reached the #5 position worldwide as a music producer and #1 artist for his record label Queen House Music.
